

Erasmus+

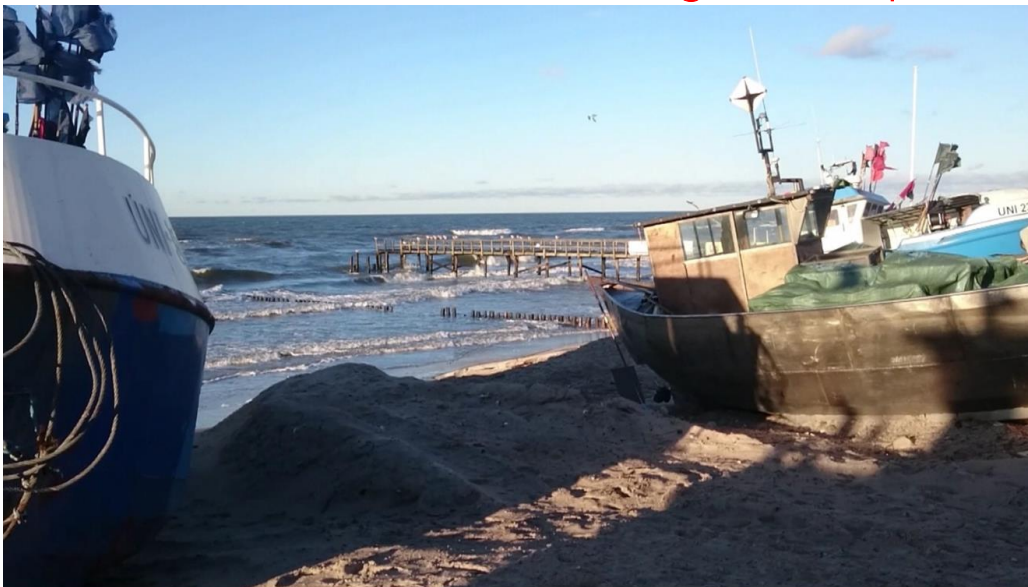

3rd CECEM

4 – 8 June 2018, Koszalin, Poland

Central European Civil Engineering Meeting 2018 (CECEM 2018) will take place at Koszalin University of Technology (Faculty of Civil Engineering, Environmental and Geodetic Sciences), Poland. The meeting is organized as an ERASMUS+ event. CECEM 2018 will have both Staff Training (STT) and Teaching (STA) character. After the event a monograph entitled "Research & Modelling in Civil Engineering 2018" will be published. The monograph will be edited by prof. Jacek Katzer and prof. Krzysztof Cichocki and it will consist of chapters prepared by willing attendees of CECEM 2017. Including chapters in the monograph will be free of charge. Colleagues from partner and non-partner institutions are encouraged to take part in the event. Participants are expected to obtain Erasmus+ Staff Mobility grants from their home Institutions. If needed, organizers will assist with booking suitable transportation and accommodation.

We consider CECEM 2018 as a great opportunity to share knowledge and experience in the field of civil and structural engineering. The week-long programme will include round table discussions, presentations, problem solving cases, lab visits, workshops and social events. The main objectives of CECEM 2018 include peer-learning, networking, transfer of knowledge and sharing research experiences and best practices. Participants are expected to bring into the discussion examples from their own institutions and present best practices or innovative approaches to the issues addressed.

Country:	Poland
Language:	English
Dates:	Monday, 04 June 2018 - Friday, 08 June 2018
Registration fee:	No fee
Deadline for applying:	30 March 2018
Accommodation:	Not provided
Contact person details:	Jacek Katzer, cecem@tu.koszalin.pl
